EXECUTIVE SUMMARY

Adobe Commerce Certified Developer with 4+ years of experience architecting, upgrading, and scaling Magento 2 / Adobe Commerce platforms. Proven track record delivering GraphQL/REST APIs, custom extensions, Hyvä theme implementations, and CI/CD-automated deployments that improve performance, security, and conversion for high-traffic e-commerce businesses. Seeking a Senior Magento Developer role — open to relocation, remote work, and visa sponsorship.

CORE TECHNICAL SKILLS

Magento / Adobe Commerce: Magento 2.4.x upgrades & migrations, custom module & extension development, GraphQL & REST API design, Hyvä themes, repository patterns, plugins & observers, cron jobs, PWA Studio basics

Languages: PHP, JavaScript, Knockout.js, HTML5, CSS3

Integrations: Stripe, Klaviyo, Google Analytics API, Firebear data migration

DevOps & Tools: Docker, AWS, Git, CI/CD pipelines, PhpStorm, FileZilla

Databases: MySQL, SQL Server

PROFESSIONAL EXPERIENCE

Senior Software Engineer — FiveTech

Jun 2024 – Present

- Majorly contributed to Box.co.uk, LaptopOutlet.co.uk, and OppoStore.co.uk — high-traffic Magento storefronts serving thousands of daily transactions.
- Upgraded Magento platforms to version 2.4.7, strengthening performance, security, and overall platform stability.
- Designed and deployed GraphQL APIs for core workflows including product updates and order processing.
- Built and maintained a B2B ordering module allowing partner companies to self-register, receive assigned credit limits, and purchase products in bulk directly through the storefront.
- Integrated Google Analytics APIs to enable real-time tracking of product views and sales performance.
- Built Magento extensions, cron jobs, and dynamic UI components that surfaced GA-driven product rankings, boosting e-commerce efficiency and user engagement.

Software Engineer — Intagleo Systems

Oct 2022 – Jun 2024

- Developed REST and GraphQL APIs and customized Magento modules, themes, controllers, and plugins.
- Automated CI/CD pipelines, improving deployment scalability and reducing downtime.
- Resolved critical Stripe payment issues and executed data migrations using Firebear.
- Integrated Klaviyo and maintained robust server management and code debugging practices.

Associate Software Engineer — PHP Studios

Jul 2021 – Oct 2022

- Customized Magento modules, implemented repository patterns, and optimized backend configuration settings.
- Worked extensively with Hyvä themes to enhance UI performance and front-end user experience.
- Resolved product listing page (PLP) issues and implemented GraphQL API endpoints.
- Developed extensions for automated log rotation and customizable PDF order templates.

KEY CONTRIBUTIONS

- Migrated multiple Magento stores to 2.4.7, ensuring performance and security optimization.
- Built a Log Rotation Extension for automated log management and a [Print Order Extension](#) (published on Adobe Commerce Marketplace) for customizable PDF order templates.

- Improved user experience and site speed through Hyvä theme implementation and checkout optimization.
- Resolved critical payment gateway challenges, including Stripe integration, ensuring seamless transactions on high-traffic e-commerce platforms.
- Automated CI/CD pipelines, reducing deployment errors and downtime.

CERTIFICATIONS

- Adobe Commerce Expert Certification — November 2024 ([verify](#))
- Adobe Certified Professional, Adobe Commerce Developer — April 2023 ([verify](#))

EDUCATION

BS Information Technology — Punjab University College of Information Technology (PUCIT), 2017 – 2021
